

NATIONAL ASSEMBLY

QUESTION NO 1131

Mr C H H Hunsinger (DA) to ask the Minister of Transport:

Following the certificates issued by the Competitions Tribunal in order to recover overcharging by construction companies that were involved in the construction of e-tolls, are there any actions being taken to recover these amounts; if not, why not; if so, what are the relevant details? NW1369E

REPLY

With respect to the cases related to overcharging by construction companies, SANRAL has appointed an independent estimator and an independent economist to calculate the damages suffered by SANRAL, if any, as a result of the collusive tendering. In the meantime SANRAL has laid charges against the companies involved with the Hawks.

Sanral will also work through the PICC initiative to ensure a coordinated approach to dealing with corruption in the construction industry.
